Subject: WWTP Transportation and Disposal Bid

We received three bids for the contract to transport treated dewatered biosolids produced at the Oregon Wastewater Treatment Plant to an Ohio EPA approved landfill. After all three bids were reviewed, we have chosen Midwest Compost, Inc. of 7250 State Route 101, Clyde, Ohio 43410.

Midwest Compost has dewatered, transported and disposed of biosolids for the Oregon Wastewater Treatment Plant since 2014.

I recommend that Midwest Compost be awarded the contract to transport approximately 5,000 tons of treated biosolids produced at the Oregon Wastewater Treatment Plant to the Rumpke Noble road landfill. The unit price varies by the size of load and is listed below;

24 ton load	$750
16 ton load	$665
12 ton load	$600

We also received three bids for disposal of approximately 5,000 tons of treated biosolids at an Ohio EPA approved landfill. Rumpke Noble road landfill has accepted our biosolids since 2014 and was the lowest bidder with a unit price of $26.90/ton.
