RE: Surveying Notice
Navarre Avenue Waterline Replacement – Phase 1

Dear Property Owner:

Beginning the week of May 11, 2015, a surveying crew will begin conducting a field survey to obtain topographic information for preparing preliminary design plans for the Navarre Avenue Waterline Replacement – Phase 1. The design process will include analysis to determine the best alignment for the new waterline. The project area will be along Navarre Avenue from Isaac Streets Drive to Lallendorf Road. The project construction is tentatively being planned for 2016.

The engineering firm for the project is Poggemeyer Design Group, Inc., 1168 North Main Street, Bowling Green, Ohio 43402. The survey crews will have vehicles identified with the company logo. The survey crew was told to insure minimal disturbance and inconvenience to the properties and traffic during the field survey for this project.

The survey personnel performing the fieldwork will be collecting data only and do not have information relative to design or construction matters. They will be carrying copies of this letter to serve as their identification as a consultant to the City of Oregon.

If you have any further questions or comments regarding this information or the project, please call myself or Andrea Beard, Engineer, at (419) 698-7047.

Sincerely,

Paul Roman, P.E.
Director of Public Service
