

OPEN HOUSE PUBLIC MEETING

Navarre/Coy Intersection Improvements LUC-2-22.51, PID 109596

October 23, 2019
4:30 pm – 6:30 pm

Purpose of Meeting

The purpose of the Open House meeting is to present information and solicit public comment on alternatives for the proposed LUC-2-22.51 Navarre Avenue and Coy Road Intersection Safety Improvement Project.

Project Purpose and Goals

The proposed project was initiated by the City of Oregon to reduce crashes and congestion and consists of the following improvements to the Navarre Avenue and Coy Road Intersection:

- Installing a median along Navarre Avenue at the Coy Road Intersection with accommodations for U-turns
- Adding a right turn lane for Northbound Coy
- Adding an additional thru-right lane for southbound Coy and extending the lane to Dustin Road
- Replacing the existing traffic signal with all new signal poles and traffic signal equipment to improve visibility and accommodate pedestrians including adding supplemental signal heads, signal backplates and ADA compliant pedestrian signals.
- Replacing the existing Coy Road bridge over Amlosch Ditch north of Navarre Avenue to accommodate additional pavement width and sidewalks
- Resurfacing the pavement within project limits
- Upgrading lane control and directional signage, including adding overhead lane-use signs.
- Eliminating some drives near the intersection
- Adding landscape and streetscape elements like the Navarre / Wheeling project.

Traffic and Pedestrian Considerations

An approximate 45-day closure of Coy Road between Navarre Avenue and Starr Avenue is anticipated to allow for the bridge replacement. A detour will be established for the closure and vehicular and pedestrian access will be maintained to all abutting properties during the closure. Otherwise, traffic will be maintained throughout construction. For Navarre Avenue, a minimum of one-lane of traffic in each direction will be maintained at all times.

PROJECT SCHEDULE

October 23, 2019
Public Meeting

Oct 23 – Nov 23, 2019
Public Comment Period

May 2019 – Dec 2020
Preliminary and Detailed Design

Dec 2019 – April 2020
Environmental and R/W
Clearances

Dec 2019 – Oct 2020
R/W Acquisition

March 2021
Sale of Project

May 2021 – Nov 2021
Construction

Your Opinion is Needed!

Feel free to view the exhibits and discuss the project with team members. What are your thoughts on the presented project? Do you have any other suggestions for this project?

Please complete a short comment form and drop it in the comment box before you leave. Or you can email or mail your comments to the study team. We ask that **comments and concerns be submitted no later than Saturday, November 23, 2019** to be considered during project development. Comments may be submitted at the public meeting or by mail or email to:
