**Summary And Background**

The Navarre Avenue and Coy Road Safety Project (LUC-2-22.51, PID 109596) will involve Coy Road widening which will necessitate the movement of existing utility poles. To improve aesthetics along Navarre Avenue the City has been in discussions with Toledo Edison, Buckeye Broadband, Zayo, Northern Buckeye Education Council, AT&T and Spectrum to relocate overhead utilities to underground conduits in preparation for the safety project.

In order to facilitate the relocation of overhead utilities as necessary with the safety project, the City will install underground conduits to accommodate each overhead utility. The utility companies will then move to the underground conduits. The City will then compensate the utility companies for any costs associated with relocation to the conduits that exceeds the costs for a routine aerial relocation.
